

ENGR. EDMUND A. EJE
EXECUTIVE DIRECTOR
MARKET OPERATIONS - ISO
Tel: 08187084548,
E-mail: eejeemma@yahoo.co.uk

Engr. Eddy Eje joined the services of the defunct NEPA in 1996 as a Pupil Engineer and after his one year pupilage program was posted to the largest Transmission Station in West Africa, the Ikeja West 330/132KV Transmission Station in Lagos as Assistant .Manager, Protection, Control & Metering (PC&M). After a 5-year spell and while still a member of a Special National Grid-Metering Taskforce, he was promoted to a Senior Manager position and drafted to Shiroro Transmission Region to head the Performance Team of the Region in November, 2003. While in Shiroro, he headed the Regional Transmission Loss Reduction Committee and in May 2004 was redrafted to the Abuja CHQs of PHCN as a member of yet another special Committee on Grid Metering Gap Analysis, whose report formed part of BPE's working document for Electricity sector privatization build-up. This Grid Metering Gap Analysis Committee incidentally formed the pioneer engineers and staff of the Market Operations when it was formally incepted in 2004. From the position of a Senior Manager in 2004, Engr. Eje rose to the position of a General Manager until the creation of ISO when he was appointed the Executive Director, Market Operations

EDUCATIONALLY, Engr. Eje has: Master of Science in Economics (M.Sc.) (Project Mgt) (Ambrose Ali University, Ekpoma, 1999-2001); Master of Business Administration (MBA) Marketing Mgt. (Lagos State University, Ojo, 1996-1998); Bachelor of Engineering (B.Eng.) Electrical, (University of Nigeria, Nsukka –UNN, 1981 – 1986); West African School Certificate, (WASC- Uboma Sec. Sch. Ikperejere, Imo State,1976-1981); First Sch. Leaving Cert.(Central Sch, Ihitte, Imo State, 1967-1974)

**PROFESSIONALLY, Engr. Eje is a COREN Licensed/Registered Engineer - (COREN Reg. No: R.9871); *Member, Nigerian Society of Engineers - (MNSE No: 0790); *Chairman - Grid Code Panel – TCN Chapter; * Member – Metering Code Committee; * Member - West African Power Pool (WAPP) Commercial Committee.
* Member-Transmission Loss Reduction Committee.**

Born in Umuihi-Ihitte of Ihitte/Uboma LGA, Imo State in 1966, Engr Eddy Eje is happily married with four children, loves listening to serenades, reading religious & technical literatures and loves quiet places. He has developed special skills in the area of Energy-to-Cash business – administering Energy Meters Specifications Compliance, Energy Audit & Bulk Metering, Electricity Market rules and Procedures, PPAs and Prevailing Industry Codes. He has attended various electricity industry management skills development trainings locally and overseas. A strict and a dedicated engineer, he sticks to specifications and standards.
